Sheffield Hallam University

DESIGN our lab!

We are researchers studying which measures of the body are the best for telling us how children's bodies grow and change.
This is our lab. But it is not very child friendly.

Children in EYFS to Key stage 4 - we need your help! We want to make our lab better for children. On the next page, please draw what you think our lab should look like; you can add details by writing, drawing and / or colouring. All entries will be judged by a panel of the researchers and local children.

The best entries by Key Stage will win a **£15 shopping voucher.**

HOW TO ENTER: Send your entry to helloreachteam@shu.ac.uk, drop it off at the AWRC Sheffield Reception Desk, or WhatsApp: 07867 208240

Thank you for helping with our science research!
All details will be kept for the duration of the competition, used in accordance with the SHU data policy, then destroyed afterwards. Winners notified by 29/01/2027.

COMPETITION CLOSES 22/01/2027
